

You are in the army now

(episode two)

welcome and opening meeting

agenda

- reservation of conscience
- defending the fatherland
- army rules
 - reservation of conscience
 - strict hierarchy and compliance with both:
 - order chains
 - conscience

afternoon session:

Soldiers, how were your apples? (sour apple is German staple food)

We had Wiener schnitzel, major.

I mean the sour ones I served you before. Which one would you swallow?

Disobedience of Germany's next top model head commander AKK or of your company colonel.

Depends major.

On?

On whether arresting the Düsseldorf people means to defend our fatherland Germany. I assume the colonel would give at least regarding this basic precondition an imaginable good explanation. How might this sound?

Excellent! You like to think! And, how must it sound?

Germany is attacked in Germany, isn't it ? eh.. I mean mustn't it (be)?

Indeed eh.. and exact. Can you now imagine a good explanation of your colonel?

Not yet, major, please go on!

We are going to go on. Do not worry!

Commander Münde and major Tom and their peer review line have been concerned during the past/last thirty years of simple mind (weak up) times. We did not only adjust the conscience concept. We readjust consciousness (to natural concepts). Today it is my pleasure too to inform you about our new army equipment achievements. You are provided for with six couples of our new so called HIV models. We are proud to be able now to work with really high innovative vehicles. TTs and TWTs, Think and Think With Tanks - generation Thaiger, completing the leopards fleet. All six platoons are going to be trained in their tanks. Thursday afternoon and Friday. The TTs stay in the barracks for source report studies and discussions. The TWTs are movable and sneak exercise wise with open roofs around our thought sources, discrete of course and if in occasional contact politely and friendly which is self-comprehensive. You, right handers, can only function as right hands if you understand the position and moves of the left hand which they are (left handers the kind of Diego Armando Maradona). We all are one people. This is an organic collective. A living organism. A population without healthy sources would be like an individual without left hand and stand leg. Near the sources our HIVs open their roofs, open themselves, and experience the source reporting in interactive environments. So, do not worry there is enough fresh air blowing through the tanks and, by the way, this coming Monday we walk 25 miles, Tuesday usually is football – sometimes basketball – day and on Wednesday you will be made familiar with your neat little new dress hand guns, in dress uniform frankly, handy Walther P99, 9 mm including muffler, it's civilized war accessory. You are in the army now!

In order to be prepared to imagine a good explanation of your colonel please read “Kafa’s Heritage, current collective time travel report” on www.familienzuechtigung.com. Read all of it within the next six weeks. It is published and available for everybody but it concerns us immediately. Maybe you do not know the analysis yet since it is literally hermetically ignored by our politics and authorities as well as by the bloody coward press bastards.

However, it is available for everybody, the facts are true (what we know from reliable sources), to discuss the analysis in our HIVs hence our duty. We did not submit our curriculum adjustments to comrade Zorn (General Eberhard Zorn, current inspector general of the Bundeswehr) for approval, though. This is covered by our general education duties

already. However, although it is not forbidden we do not talk outside the tanks too much about them.

When our platoons go they know why!

Now, after a five minute break, I would like to fill the rest of the day with our order chain and compliance concerns again. We have not yet overcome its origin, remember?!

...

... break ...

...

Soldiers, ultimate head commander is the German people. Let us assume this was still undisputed. Then our serious activities would presume an attack on Germany.

What is an attack and who is competent to decide that something what is going on is in fact an attack and then to declare this defence case officially and in the name of the people? Let us here only look at the second part of the question. Do not expect too much time here on discussions about natural phenomenon's and the evidence of their abuse. This provides your lecture of Kafka's Heritage for. So, not "*What is an attack (?) ...*" but "*... and who is competent to decide that something what is going on is in fact an attack and then to declare this defence case officially and in the name of the people?*" is what we are going to look at here now and quite detailed.

It is the government or the parliament or both. Maybe the parliament if there is still enough time to discuss and agree on the defence case or maybe the government with emergency powers. Let us just say our mps (government are mps too).

Did you ever hear something of fraction discipline?

Yes. Good. And did you hear about the rule

reservation of conscience

It applies to our mps like it does to us. Fraction discipline, however, is even more of a simple conscience concept than our military simple mind times concept was. I think and nobody contradicted so far that this – recognize the defence case – is a conscience

decision and therefore incapable to be decided in a fraction disciplined resolution. If recognize the defence case is no conscience decision there are no conscience decisions. Not sure if our politicians have a conscience, however, I know they do not have concerns. Make stupid proposals of military operations which have nothing to do with defence in the public without hesitation but block spiritual comments on them hermetically and send us around the globe meanwhile?

And now free yourself of the exclusivity of your war imaginations or expectations. Battle wars. Armies against each other. Far outside of Europe there are still battle wars and conflicts (Syria momentarily for example) what keeps this war picture updated in European simple mass media minds. However.

Battle wars outside Europe are complemented inside by an evil modern war form which is best called civilized war (no civil wars which are battle wars) and which is place taking nowadays of and for full seventy happy peace years already disguised by this conventional war picture.

They are fought with cunning psychological means of abuse and damage all natural consciousness types, i. e. individual collective (of the whole population) and spiritual consciousness in order to cut the sensual relation of right and left hand of the whole people. Then they cut us military body function loose in that they abolish compulsory basic service.

No spiritual information any longer. Simple minds start to believe again.

Work work work like idiots at least since not paid accordingly and do not care about us being sent into Kosovo, Afghanistan, Iraq and so on and soon the Straits of Hormuz perhaps. We die in battles or other operations far away from our fatherland whereas our population is only a little bit slower collapsing at home and unprotected.

Now back to our mps. Would they recognize, which is in fact acknowledge, such a defence case? (In six weeks we are going to wonder whether they would acknowledge not "such a" but this defence case. [Suicidal genocide under celibate supervision.](#))

More than ever if there are no external attacks visible or threats pending.

In addition to or even better before Kafka's heritage please read § 7 Völkerstrafgesetzbuch. It helps to determine what can be an unacceptable attack on a whole people. Individual and collective life conditions are essential ... and who can put who under them. You find it clicking here: [https://www.gesetze-im-internet.de/vstgb/_7.html#targetText=\(5\)%20Wer%20ein%20Verbrechen%20nach,mit%20schwererer%20Strafe%20bedroht%20ist](https://www.gesetze-im-internet.de/vstgb/_7.html#targetText=(5)%20Wer%20ein%20Verbrechen%20nach,mit%20schwererer%20Strafe%20bedroht%20ist)

And now enjoy your diner apples soldiers, (Apfelessen ha ha), it was a real pleasure with you today.

End of episode
